**Robert August** began surfing at the early age of 6 under the wing of his father and early surf pioneer, Blackie August. Blackie's love for fun and the ocean lifestyle was deeply ingrained in Robert. At the age of 18, Robert circled the globe with Bruce Brown in search of the perfect wave. The adventure resulted in the classic film "The Endless Summer" and inspired thousands of surfers to travel the world. Now one of the best and most respected surfboard shapers in the world, Robert has never stopped traveling for surf and certainly never stopped having fun. Always on the lookout for useful, fun stuff, Robert was stoked the first time he saw a nirve cruiser. The bike's classic style and rugged construction are quite appealing. What really got him excited was the way it handled. A casual cruise to the beach for a surf session, or just down the boardwalk at sunset reminded him of an endless tube ride at Cape St. Francis.
